

HEAV Friends & Family Benefit

\$99 Cognitive Testing & Results Consultation

LearningRx is pleased to offer friends and families of HEAV a standardized cognitive skills assessment plus a 1-hour results consultation with a LearningRx center director for only \$99. (normally \$199-\$299)

VIRGINIA RESIDENTS ONLY

Special Announcement!

The last 3 years have had a major impact on our kids and our community. The Virginia Department of Education (VDOE) reports that students have experienced significant learning loss due to the pandemic and shutdowns.

To help remedy this problem, Governor Youngkin has announced the **availability of \$30,000,000 in Learning Recovery Grants to ALL students**—public, private, AND homeschool—between the ages of 5 and 19 years old. Virginia is unique in that homeschool children are included in these \$1,500/per student learning loss grants.

We are excited to announce that LearningRx is a preferred provider, and you can use this funding to offset the costs of an assessment and/or a brain training program!
